## LAKE MCDONALD FURNITURE SECTION

Mr. Jerry Dobyms of Glacier Park Inc. has stated that furniture is to be arranged in the Lake McDonald Lodge as per a prior written agreement between Glacier Park Inc. and Glacier National Park. No copy of this agreement can be found in the Glacier National Park Concessions Office, so it is not included in this section of the "Furnishing Guide".

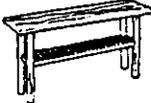

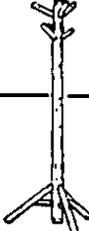

The following pages constitute an inventory by type of the furniture found in the Lobby and the Dining Room of the Lodge in early September, 1988.

Copies of the agreement Mr. Dobyms referred to, or a comparable floor plan showing arrangement of furniture, will be added to the FURNITURE section of this FURNISHINGS GUIDE before installation of new furnishings in the Fall, 1989.

## ANIMAL MOUNTS

This section specifies the desired location of mounted animals displayed in the Lake McDonald Lodge Lobby and Dining Room, and the relocations necessary for some mounts after the rehabilitation project of the winter of 1988-89.

The first five pages deal with RELOCATIONS of mounts, and are followed by twenty photographs.

PHOTOGRAPHS I through X deal with mount locations in the Lobby.

PHOTOGRAPHS XI through XX deal with mount locations in the Dining Room.

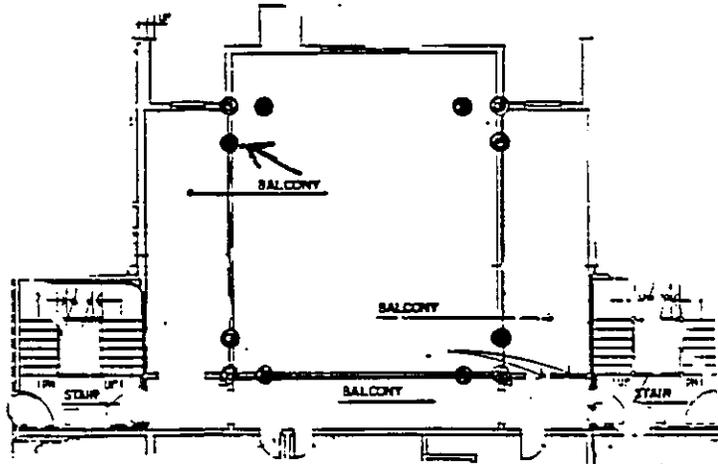

## RELOCATIONS

### ANIMAL MOUNTS - LOBBY

LOCATION: Northeast corner

Relocate bird mount four feet higher on same pillar. Relocate mount from south wall of Dining Room to pillar where bird is shown.

PURPOSE: Provide place for displaced mount from south wall of dining room. Provide more profuse display of mounts in Lobby.

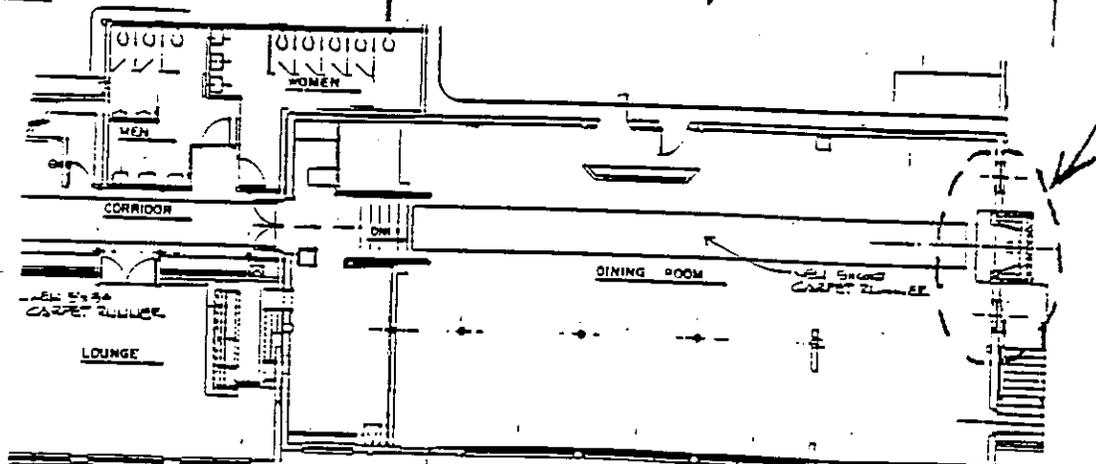

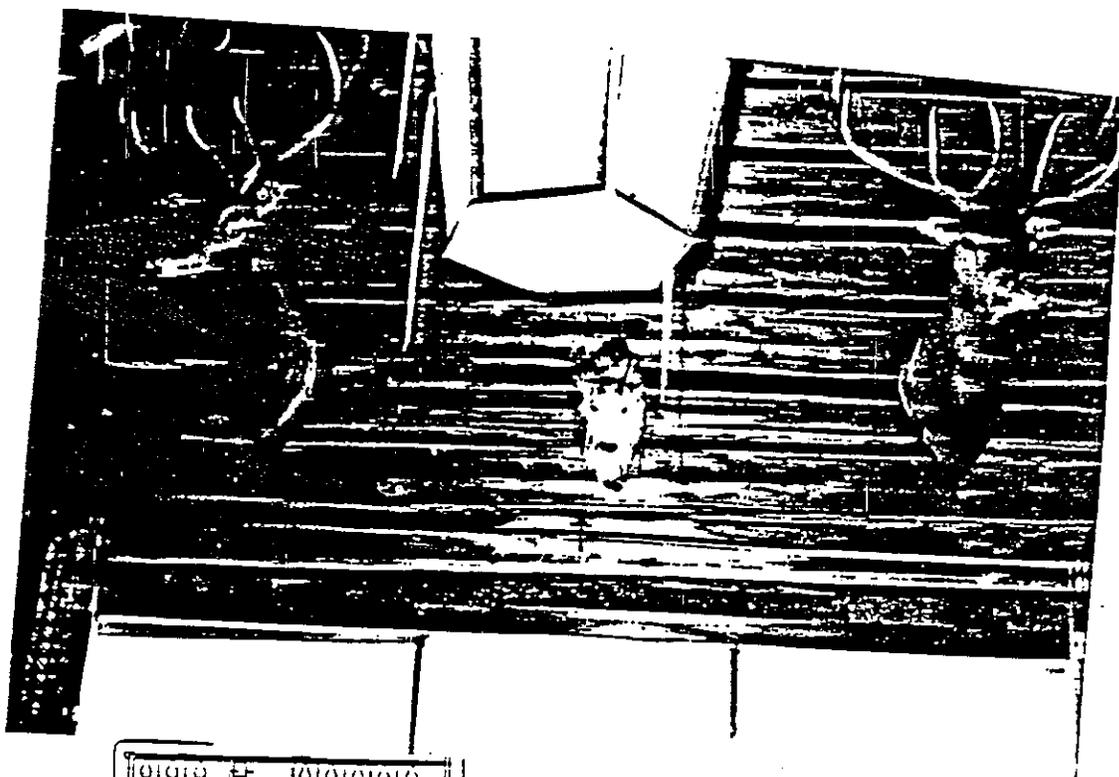

RELOCATIONS

ANIMAL MOUNTS - DINING ROOM

LOCATION: South wall where fireplace is now.

Elk heads remain, symmetrically positioned over fireplace. Goat head is to be displayed at near-rail level on south side of inside column in northeast corner of Lobby. (Railing referred to is second-floor balcony rail)

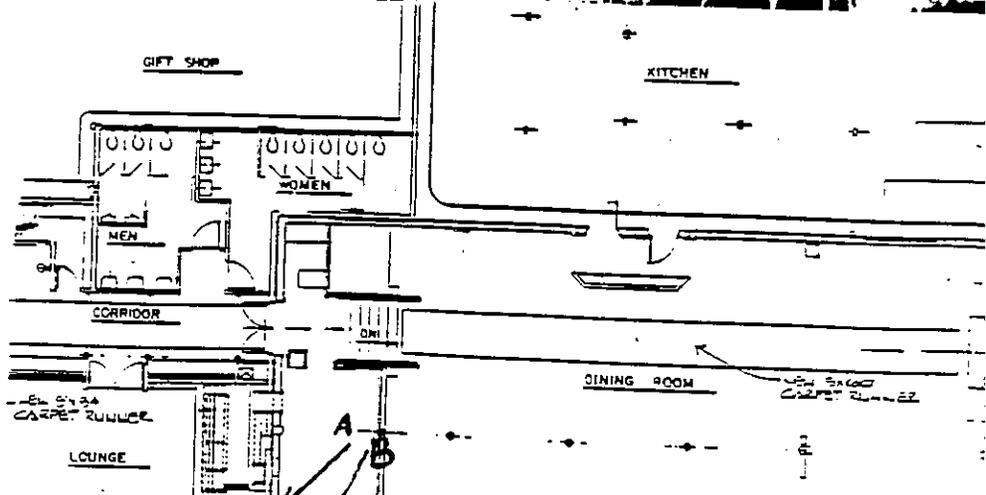

RELOCATIONS

ANIMAL MOUNTS - DINING ROOM

LOCATION: Northwestern corner, in area of newly raised deck/ handicapped access area.

Mount "B" appears to be missing from late summer, 1988, when the photograph was taken. Mount "A" is relocated to "B"'s location to provide clearance for tables in raised-floor area.

PURPOSE: New elevated floor in this part of Dining Room reduces space for mounts. Mount "A"'s former space is filled by pictures in the PICTURE section.

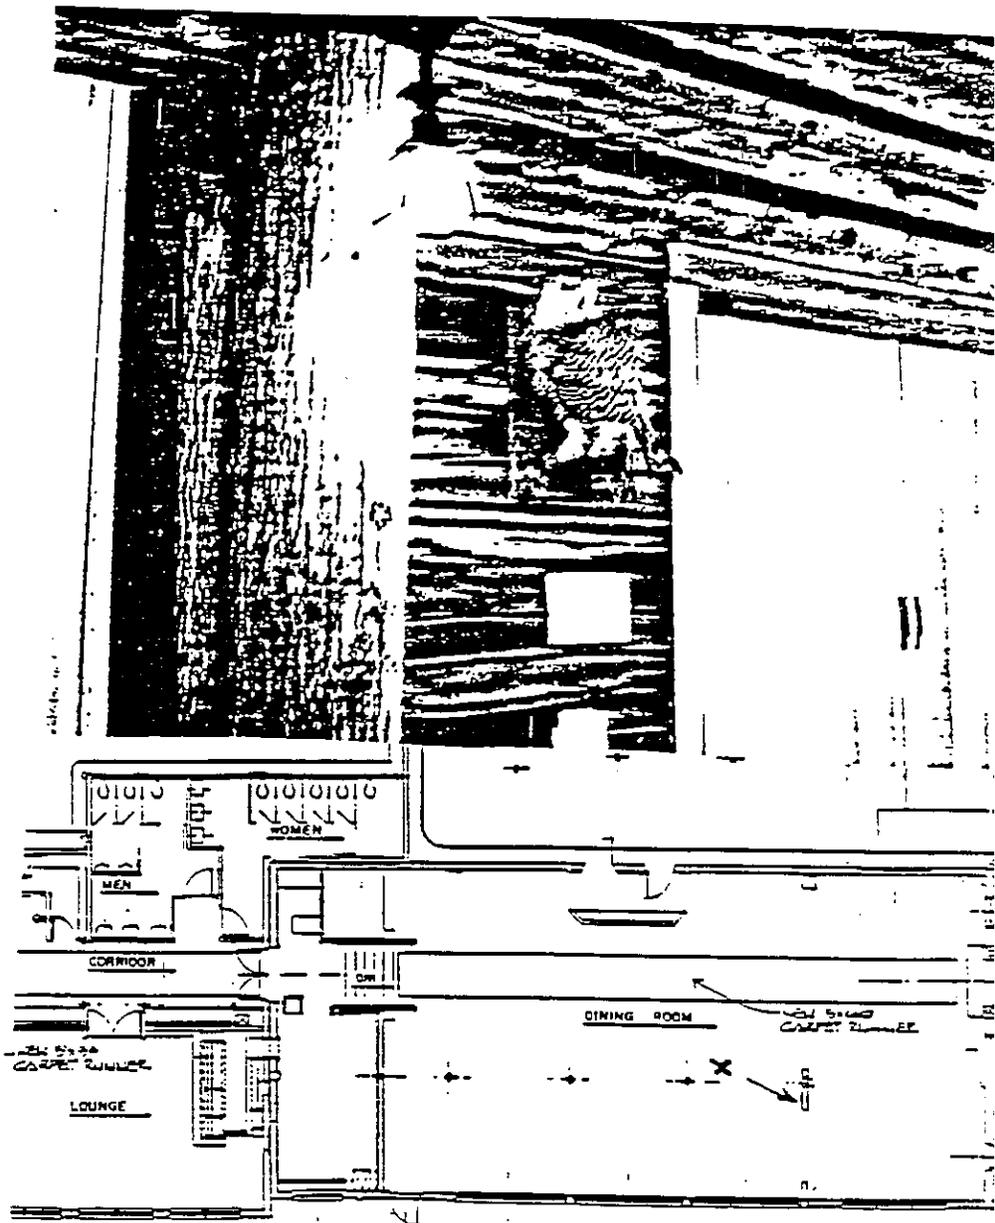

RELOCATIONS

ANIMAL MOUNTS - DINING ROOM

LOCATION: Formerly on columns "A", "B", and "C", (see PHOTOGRAPHS XV & XVI) bird mounts should be moved to partition wall in upper right of photograph, evenly spaced above walkway.

PURPOSE: Mounts formerly were unsecured on their platforms which were hung by a single nail from columns in Dining Room. For protection to the mounts and for the safety of people walking near them, they need to be moved to a location where they will be less subject to bumping by traffic.

RELOCATIONS - LOBBY

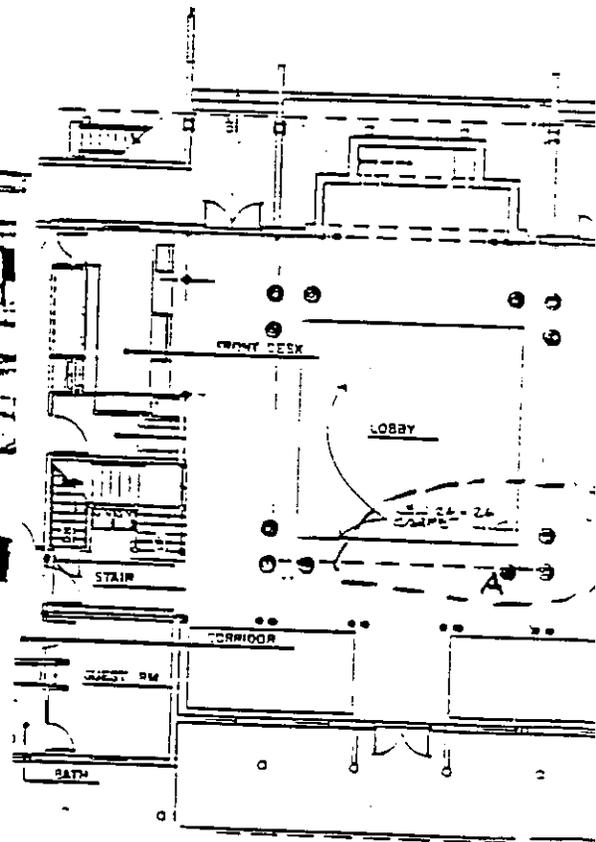

LOCATION: Column "A", southwest corner

Relocate antelope head mount as indicated by arrow. Mount was formerly displayed in Dining Room.

PURPOSE: Provide a more profuse display of mounts in Lobby. Provide greater symmetry in display of mounts in Lobby.

See RELOCATIONS.

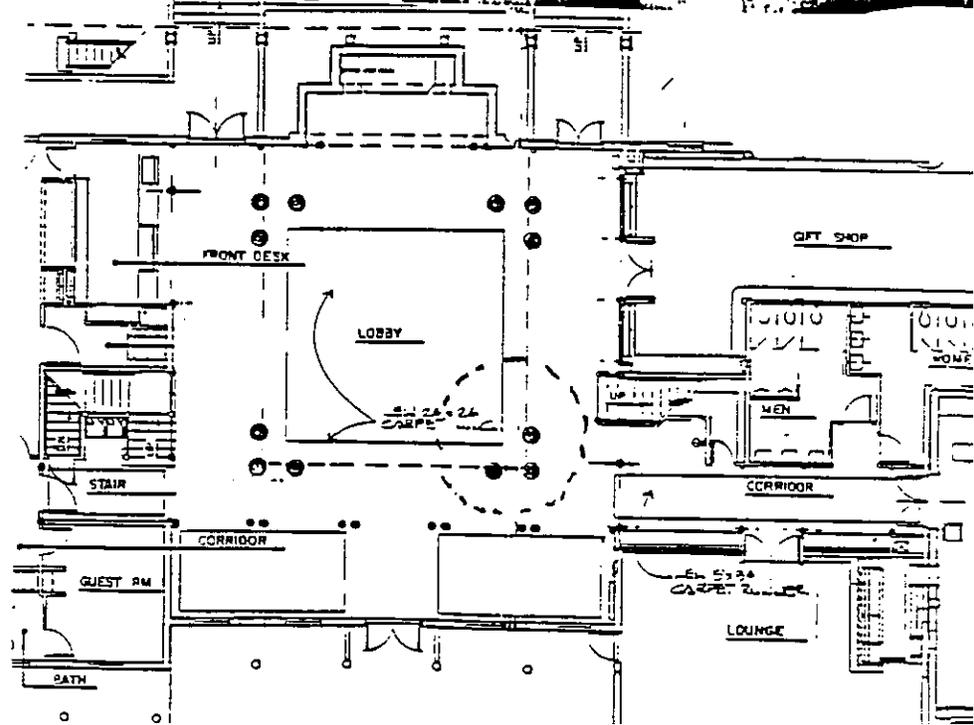

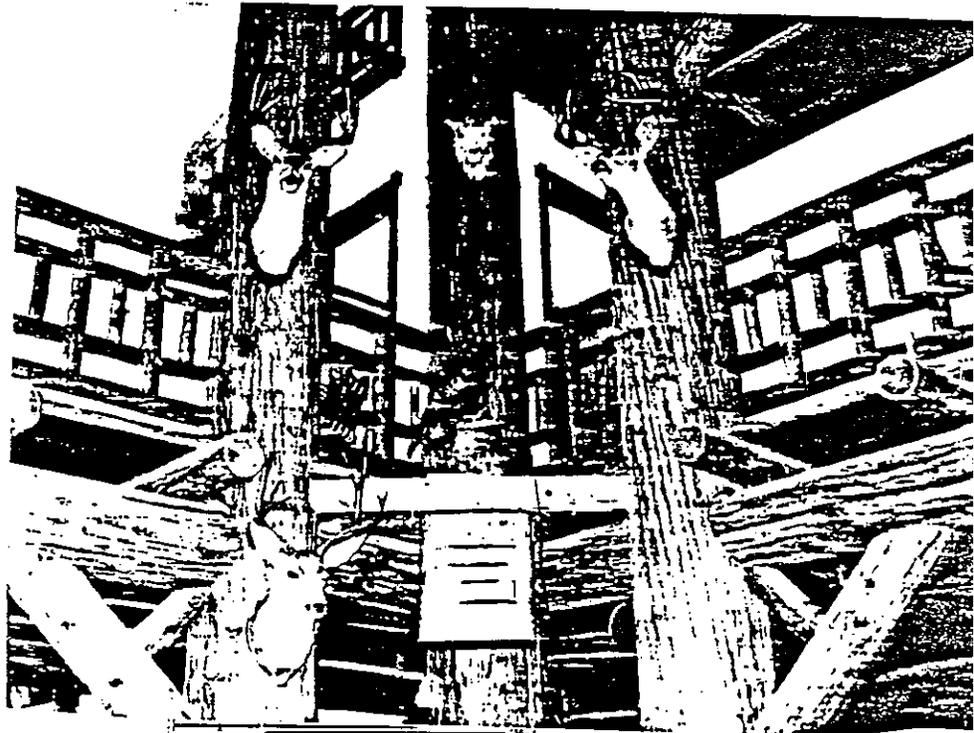

ANIMAL MOUNTS - LOBBY

ANIMAL MOUNTS - LOBBY

PHOTOGRAPH VII

LOCATION: Northwest corner

PHOTO POINT: Lobby floor looking up

Note: goat head mount is quite high on center pillar and appears in no other photo. Mountain sheep mount's throat is visible in PHOTOGRAPH VI. Full-mount goat is mounted above doorway, not on rail as might be inferred from photo angle.

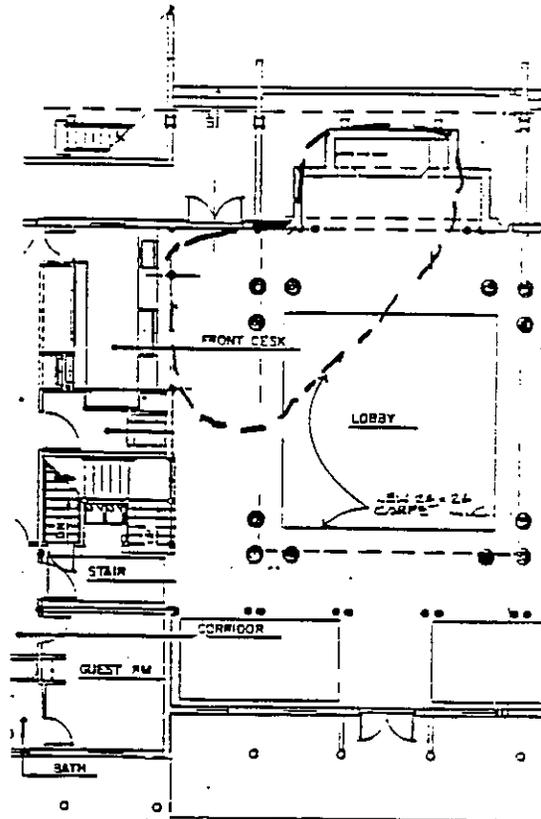

ANIMAL MOUNTS - LOBBY

PHOTOGRAPH VIII

PHOTO POINT: Lobby floor, southwest corner

Note: Moose head centered over fireplace.

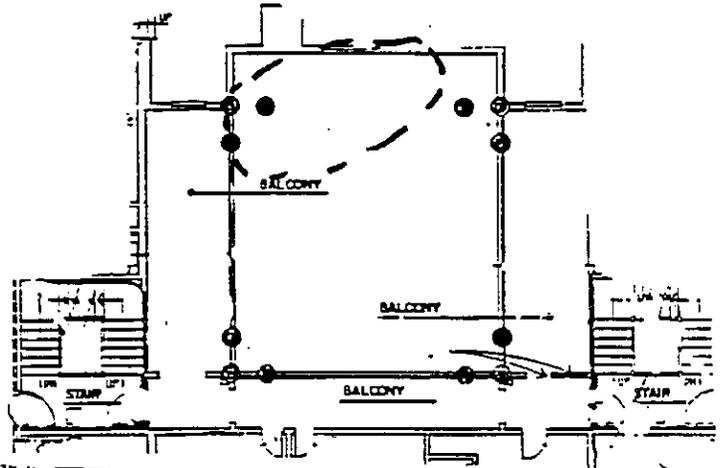

ANIMAL MOUNTS - LOBBY

PHOTOGRAPH IX
